Subject: Electronic Discovery
To: marcusr@uchastings.edu

Professor Marcus: I am a 25-year practitioner in Jacksonville, Florida representing parties in both state and federal courts. Electronic discovery as presently controlled has caused undue hardship and expense to my clients. The FRCP should contain at least a safe harbor for them in regard to retention of records and shifting of cost of producing records not kept in the ordinary course of business. Thank you for accepting these comments on behalf of your sub-committee. Gerald W. Weedon, Marks Gray, PA, P.O. Box 447 Jacksonville, Florida 32201 (904) 398-0900.
